Low-Income Residents Eligible For Free Tax Service

POSTED: 7:12 pm EST January 26, 2010

BALTIMORE -- Depending on your income, you may be eligible for free tax preparation services.

Local government and business leaders kicked off this year's CASH Campaign on Tuesday at the Greater Baltimore Urban League, one of 18 free tax preparation sites across the city.

The nonprofit organization said it wants to raise awareness so it can meet its goal of preparing 16,000 tax returns for low-income working families for free.

"We want to inform people that they have access to honest, free tax preparation services," said state Comptroller Peter Franchot.

Single taxpayers who make less than \$25,000 a year are eligible for the free service. Families making less than \$49,000 a year also qualify.
